A PORTFOLIO OF PRODUCTS TO HELP YOU IMPROVE YOUR LAND.
SOUTHERN EDITION

WHAT'S GOOD FOR YOUR LAND IS GOOD FOR YOUR CATTLE.

For more information on any of our Range & Pasture herbicides, contact your Dow AgroSciences Range & Pasture Specialist, visit www.RangeandPasture.com, or call us at 800.263.1196 for the name of a specialist in your area.

WHEN WEEDS WIN, CATTLE LOSE.

Weeds compete for nutrients and require up to 11 times as much water to reach maturity as pasture grasses. Encroaching brush can make it hard for cattle to find grass, and hard for you to find cattle. All told, undesirable plant species can deplete a pasture’s grazing potential by as much as two-thirds. Successful weed and brush control improves your pasture, with grass replacing weeds pound for pound. It also can protect your herd from poisonous weeds and damaging thorns. Bottom line: The more grass your grow, the lower your cost of production.

COUNT ON THE RANGE & PASTURE SPECIALISTS.

Dow AgroSciences offers a full line of products to suit nearly any rangeland or pasture management situation. Whether your goals call for a broad-spectrum or very selective herbicide treatment, the convenience of a premix, or spot or broadcast applications, we have the right product for the job, along with unmatched experience and support from our field sales staff.

See inside for a quick reference of all our Range & Pasture herbicides. For more information, visit www.RangeandPasture.com.
