SAFETY PRECAUTIONS

Operator protection:

Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:

- Wear suitable protective clothing (coveralls), suitable protective gloves and face protection (faceshield) when handling the concentrate.
- Wear suitable protective gloves when handling contaminated surfaces.
- Wear suitable protective clothing (coveralls) and suitable protective gloves when applying by hand-held equipment.

DO NOT BREATHE SPRAY. WHEN USING DO NOT EAT, DRINK OR SMOKE.

WASH CONCENTRATE from skin and eyes immediately.

WASH HANDS AND EXPOSED SKIN before eating and drinking, and after work.

Environmental protection:

DO NOT CONTAMINATE WATER with the product or its container. Do not clean application equipment near surface water. Avoid contamination via drains from yards and roads.

Extreme care must be taken to avoid spray drift onto non-crop plants outside of the target area.

To protect aquatic organisms respect an unsprayed buffer zone of 5m to surface water bodies.

Livestock must be kept out of treated areas. IF RAGWORT IS PRESENT, FOLLOW THE GUIDANCE IN THE ‘DIRECTIONS FOR USE’.

Storage and disposal:

KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDINGSTUFF.

KEEP IN ORIGINAL CONTAINER, tightly closed in a safe place.

RINSE CONTAINER THOROUGHLY by using an integrated pressure rinsing device or manually rinsing three times. Add washings to sprayer at time of filling and dispose of safely.

DO NOT RE-USE CONTAINER for any purpose.

A suspension emulsion formulation containing 100 g/litre fluroxypyr and 2.5 g/litre florasulam.

A post-emergence herbicide for use on GRASS SEED CROPS, NEWLY SOWN LEYS and ESTABLISHED GRASSLAND for the control of DAISY, DANDELION, BUTTERCUP and other broad-leaved weeds.

Envy

®

H

Product Identifier according to Art.18 of Reg. (EC) No 1272/2008 [CLP]:

Envy; Hydrocarbons, C9, aromatics

Danger

- May be fatal if swallowed and enters airways
- Causes skin irritation
- May cause an allergic skin reaction
- Causes serious eye irritation
- May cause respiratory irritation
- May cause drowsiness or dizziness
- Toxic to aquatic life with long lasting effects

Wear protective gloves/clothing/eye/face protection.

IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician

IF ON SKIN: Wash with plenty of soap and water.

IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Do NOT induce vomiting.

Collect spillage.

Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste.

To avoid risks to human health and the environment, comply with the instructions for use.

PCS No. 05806

READ DIRECTIONS FOR USE ON ATTACHED LEAFLET.

SHAKE WELL BEFORE USE.

PROTECT FROM FROST.

PROFESSIONAL USE ONLY

Triple Rinse Containers, Puncture and Invert to Dry at time of use

Pack size: 3 Litres

- Do not spray contents until the spray tank is completely dry.

**Established Grassland**

- Do not spray contents until the spray tank is completely dry.
- Do not spray contents until the spray tank is completely dry.
- Do not spray contents until the spray tank is completely dry.

**Rate of Application and Weed Controlled**

- Do not spray contents until the spray tank is completely dry.
- Do not spray contents until the spray tank is completely dry.
- Do not spray contents until the spray tank is completely dry.

**Follow up Crops**

- Do not spray contents until the spray tank is completely dry.
- Do not spray contents until the spray tank is completely dry.
- Do not spray contents until the spray tank is completely dry.
ENVY is a broad-spectrum systemic herbicide containing active ingredients with differing modes of action and the risk of cross-resistance with other broad-leaved herbicides. The product should be used to control weeds growing in pastures and grassland. It is important to follow the instructions on the label to ensure effective weed control.

**RAGWORT CONTROL**
ENVY can be applied to new sown leys at a dose rate of 1.0 to 1.5 L/ha between 1st March and 30th November. However, it is important to note that the grass (and hence the weeds) has been cut or grazed, leave for 2 to 3 weeks to allow sufficient re-growth to occur before spraying. It is important that there is a sufficient hard past to the ploughed soil in order to protect the treated areas.

**APPLY AT CORRECT RATE**
ENVY may be applied through tractor-mounted hydraulic sprayers providing the equipment is compatible with the cleaning solution. Top up with water making sure the tank is completely full and allow to stand for 15 minutes with agitation before applying. For spraying at boom height, keep the width of the boom between 1.5 and 2.5 m in order to protect the treated areas.

**TANK CLEANING**
When in use water should be used to top up the tank, using water to flush through the booms and hoses and drain tank completely. Where equipment is used to top up the tank, the use of water should be avoided. Where equipment is used to top up the tank, the use of water should be avoided.

**Note**

- Do not apply between 1st February and 30th November.
- Do not apply when grass is wet.
- Do not apply when grass has been cut or grazed.
- Do not apply between 1st February and 30th November.
