According to the U.S. Department of Energy, the average U.S. home has a ½ mile of gaps and cracks. And, air leaks account for 25-40% of the energy used for heating and cooling a typical home.* All those openings are like tunnels for heat and conditioned air to leak out and unwanted air to sneak in, resulting in higher utility bills for your customers and a home that is drafty with temperature swings from room to room.

Close the Gap
Fill the gaps ... and crack down on energy loss with GREAT STUFF PRO™ Gaps & Cracks Insulating Foam Sealant.

By air sealing homes with GREAT STUFF PRO™ Gaps & Cracks, you’ll be providing a valuable service for your customers, helping to seal out energy loss, lower energy bills and provide a more comfortable home.

GREAT STUFF PRO™ Gaps & Cracks is a gun-applied, expanding spray foam sealant for use all around the home. It is also recognized as a fireblock sealant.**

Features and Benefits at a Glance
