# Reducing your out-of-pocket costs for the medicine you need

## **Preventive Medicine List**

# Receive preventive medicine without first having to meet your deductible.

If you have certain conditions such as hypertension, high cholesterol, diabetes, asthma or osteoporosis, you'll be interested in a special feature that can help you manage the cost of the medicine you need.

We understand how important it is to take the medicine prescribed by your doctor, and the Aetna preventive medicine feature makes it easier for you to do that.
