POWERBLOX™ EF-25 Solvent

Unlock the Power of Your Formulation

POWERBLOX™ EF-25 Solvent Provides Excellent Handling Properties for Fertilizer Treatment Applications:

- High flash point (>200°F)
- Low odor
- UAN / Urea compatible

Introducing POWERBLOX™ EF-25 Solvent

Nutrition is crucial to plant health, high quality harvest and high yield. Using the right source of fertilizers, and applying fertilizers at the right rate, right time and in the right place – the 4Rs of nutrient stewardship is a set of best practice guidelines to grow crops economically and sustainably. Fertilizers, mainly nitrogen, are commonly treated with various additives to achieve the 4R objectives. POWERBLOX™ EF-25 Solvent is an excellent treatment carrier that is compatible with common nitrogen inputs.

Suitable Applications

POWERBLOX™ EF-25 Solvent is suitable for use as a solvent carrier for fertilizer treatment chemicals such as nitrogen stabilizers and dyes.

Typical Properties

The three images above show dyes dissolved in POWERBLOX™ EF-25 Solvent and demonstrate that the solvent evenly distributed the dyes on urea granules.

Availability

Product Stewardship

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products - from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.

NOTICE: No freedom from infringement of any patent owned by Dow or others is to be inferred. Because use conditions and applicable laws may differ from one location to another and may change with time, Customer is responsible for determining whether products and the information in this document are appropriate for Customer's use and for ensuring that Customer's workplace and disposal practices are in compliance with applicable laws and other government enactments. The product shown in this literature may not be available for sale and/or available in all geographies where Dow is represented. The claims made may not have been approved for use in all countries.
