

Compatible, Sustainable EVOLV3D™ USM Universal Support Material

A universal support for your 3D imaginations

Key benefits:

- **Universal** – Works with a broad array of popular build materials
- **Cost-efficient** – No need to stock multiple support materials
- **Easy to remove** – Dissolves in tap water at room temperature
- **Safer to handle** – No harsh chemicals needed for cleanup
- **Sustainable** – Can be washed down the drain

Imagine using only one support material for *virtually every type* of filament you print with. Then imagine that material also being soluble in water, allowing it to be washed away easier and safer, without hazardous caustic baths.

You won't have to imagine much longer. EVOLV3D™ USM from Dow is here. No more having to stock multiple support materials or guessing about which material is right for your project.

Be among the first to use EVOLV3D™ USM
