TRAFFIDECK™ GO FLOORING SYSTEM STRUCTURES

The TRAFFIDECK™ GO flooring system structures and processes are tailored to help meet your flooring needs and transportation requirements. The TRAFFIDECK™ GO solution for Low Bed trailers can be easily applied to the trailer through the use of low pressure equipment on to wood, steel or aluminium substrates.

TYPICAL LOW BED TRAILER SYSTEM

TRAFFIDECK™ GO ELASTOMERIC MEMBRANE

**TRAFFIDECK™ GO PRIMER
+ TRAFFIDECK™ GO QUARTZ PRIMER**

TRAFFIDECK™ GO System for Low Bed trailers is a flexible coating that is easy to apply and allows for a fast return to service. Its anti-slip surface and high abrasion resistance combines excellent durability and high protection for your trailer with a high friction coefficient to help facilitate load securing.

INTRODUCING A NEW, EFFICIENT AND DURABLE FLOORING SOLUTION FOR LOW-BED TRAILERS

TRAFFIDECK™ GO Transportation Flooring Solutions from Dow is an innovative family of high quality seamless coatings that can offer anti-slip, corrosion and abrasion resistant protection for flooring of transportation trailers, vehicles, and containers.

TRAFFIDECK™ GO System for Low Bed trailers offers a flexible coating. Its anti-slip surface and high abrasion resistance combines excellent durability and high protection for your trailer with a high friction coefficient to help facilitate load securing.

TRAFFIDECK™ GO

transportation flooring solutions by 

ANTI-SLIP SURFACE FOR EASIER LOAD SECURING

Anti-slip surface to help secure loads during transportation.

High friction coefficients help facilitate safe transportation of loads.

INCREASED DURABILITY & PROTECTION

Durable, crack resistant, and corrosion and abrasion resistant protection.

Enable easy cleaning between loading and unloading cargo, for a more hygienic surface.

REDUCED TIME SPENT ON-SITE

Non-slip mats & other measures are often no longer required, helping reduce time spent on-site and costs.

Fewer load securing measures may be required for securing the load, improving turnaround times.

FAST APPLICATION & FAST RETURN TO SERVICE

Suitable for Low Bed trailer flooring made from wood, steel or aluminium substrates.

Can be easily applied through the use of specialist spray equipment.
