ROVACE™ 9100AF Emulsion
For Interior Flat to Semigloss Paints

Regional Product Availability
North America

Description
ROVACE™ 9100AF Emulsion is a vinyl acrylic binder for interior flat to semi gloss paints. ROVACE™ 9100AF Emulsion is manufactured at 55% solids, without the use of APEO (alkylphenol ethoxylate) surfactants.

ROVACE™ 9100AF Emulsion provides excellent scrub resistance for the economy paint space. It also shows good compatibility with a variety of rheology modifiers, in order to provide easy application, as well as good application properties such as touch-up. ROVACE™ 9100AF Emulsion has a consistent particle size development, which helps ensure consistent paint manufacturing in the plant.

Benefits
- Excellent scrub resistance
- Very good application and touch-up
- Economical formulating
- Consistent paint manufacturing

Typical Physical Properties
(These properties are typical but do not constitute specifications.)

Handling Precautions
Before using this product, consult the Material Safety Data Sheet (MSDS)/Safety Data Sheet (SDS) for details on product hazards, recommended handling precautions and product storage.
Storage

Store products in tightly closed original containers at temperatures recommended on the product label.

Disposal Considerations

Dispose in accordance with all local, state (provincial) and federal regulations. Empty containers may contain hazardous residues. This material and its container must be disposed in a safe and legal manner. It is the user's responsibility to verify that treatment and disposal procedures comply with local, state (provincial) and federal regulations. Contact your Dow Technical Representative for more information.

Product Stewardship

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products - from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.
